ABOUT ME

As a seasoned Frontend **Team Lead** at Appswave, I bring over seven years of experience in delivering pioneering and tailored software solutions to a variety of industries. My specialization in **React.js, TypeScript, JavaScript,** and **C#** enables me to craft **scalable** and **efficient** software, with a keen focus on maintaining **clean code** and implementing robust software **design patterns**. My expertise extends to web applications and object-oriented programming, ensuring that I provide comprehensive support throughout all project phases, from initial conception to successful deployment. Working collaboratively within cross-functional teams, I am committed to upholding best practices, writing maintainable code, and conducting thorough code reviews to mentor junior developers. I take pride in enhancing front-end performance and user experiences, leveraging my skills in HTML, JavaScript (Vue, Angular, **React**), and SASS to deliver exceptional results. My dedication to delivering top-tier code and user experiences is matched by my eagerness to continuously learn new technologies and industry best practices. With a solid educational foundation, holding a Bachelor's degree in Computer Science from World Islamic Sciences, I have honed my skills and deepened my understanding of the technological landscape, ensuring that my practical experience in software development is always complemented by a strong theoretical background.

WORK EXPERIENCE

Frontend Team Lead | Appswave | Amman | Apr 2024 - Present

- Lead daily stand-ups and ensure clear communication among team members.
- Architect scalable and maintainable front-end frameworks and libraries.
- Collaborate with product managers to align technical solutions with business needs.
- Conduct code reviews to maintain high-quality code standards.
- Manage the front-end team's roadmap and prioritize tasks effectively.
- Drive the adoption of best practices in coding, testing, and deployment.
- Facilitate continuous learning and development of team members' technical skills.
- Monitor application performance and optimize code for maximum speed and scalability.
- Interface with back-end developers to ensure seamless integration of web services.
- Stay updated with emerging front-end technologies and industry trends.

Senior Software Developer | Meccasoft | Amman | Aug 2022 - Jan 2025

- Design and implement robust, scalable software solutions for various platforms.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Maintain and improve code quality through writing unit tests, automation, and code reviews.
- Troubleshoot and debug to optimize performance of applications for maximum speed and scalability.
- Participate in the entire application lifecycle, focusing on coding and debugging.
- Lead the development of critical system components and reusable libraries.
- Stay up-to-date with new technology trends and best practices in software development.
- Provide technical guidance and mentorship to junior developers on the team.
- Contribute to the continuous integration and continuous deployment (CI/CD) pipeline.
- Engage in peer code reviews to maintain high standards of code quality and foster knowledge sharing.

Frontend Developer | Mawdoo3.com | Amman | Aug 2021 - Aug 2022

- Developing and implementing clean and efficient front-end solutions using technologies such as Nuxt.js, Vue.js, Angular, JavaScript, and TypeScript.
- Collaborating with cross-functional teams, including designers and back-end developers, to translate design concepts into functional user interfaces.
- Participating in agile development methodologies, such as Scrum or Kanban, to ensure the timely delivery of high-quality software.
- Writing clean and maintainable code that follows industry best practices and coding standards.
- Conducting code reviews and providing constructive feedback to junior developers to improve code quality and ensure adherence to coding standards.
- Optimizing front-end performance and user experience through techniques like code minification, image optimization, and lazy loading.
- Working closely with UX/UI designers to implement responsive and user-friendly interfaces.
- Collaborating with the back-end team to integrate front-end components with server-side logic and APIs.
- Troubleshooting and debugging front-end issues to identify and resolve software defects and performance bottlenecks.

- Keeping up to date with the latest trends and advancements in front-end development and actively applying new techniques and tools to improve development processes and outcomes.

Software Developer | Terkwaz Business Solutions | Amman | Apr 2018 - Aug 2021

- Proficiently translating mock-ups into functional websites and applications using HTML, CSS, and JavaScript.
- Collaborating closely with cross-functional teams to provide comprehensive support throughout all project delivery phases.
- Developing responsive and user-friendly websites and apps to ensure optimal usability across various devices.
- Effectively communicating technical complexities to team members clearly and understandably.
- Demonstrating a proactive approach by generating innovative ideas and proof of concepts aligned with project requirements.
- Conducting thorough testing to identify and address bugs and technical issues before and after deployment.
- Offering mentorship and guidance to Junior Engineers, fostering their technical growth and facilitating the removal of obstacles in their development journey.

EDUCATION

Bachelor's degree, World Islamic Sciences, Amman | 2023

SKILLS

- JavaScript • React.js • TypeScript • Leadership • HTML5 • CSS • Animation • Tailwind • Angular • Vue • REST API • C#
- Node • NestJS

LANGUAGES

- Arabic • English
